

SPAZIO — NOBILE

CHEN CHEN & KAI WILLIAMS (NEW YORK, US)

Saison IV – Season IV - Crystallized

Chen Chen & Kai Williams is a New York-based design studio working in furniture, products, interiors and mixed materials. The company was first established as an experimental design space in 2011 by Pratt graduates Chen Chen and Kai Williams - their work backgrounds undoubtedly contributing to their playful, yet functional products (Chen through his time at the former New York concept store Moss and Williams with his experience at 'Tom Sachs' studio). Currently operating in the commercial and art/design markets, Chen Chen & Kai Williams encourages new ways of design thinking. Illustrated through their real fruit moulded, Stone Fruit Planters and utilitarian Third Eye Vessels to one of a kind Resin Benches and towering Warp Core floor lights. Past clients include Études Studio, Baggu and Mission Chinese, while presentations of their work have been held at the Museum of Art and Design (USA) and the Venice Architecture Biennale (Italy). They also design products for Tai Ping Carpets, Are aware and Good Thing.

About the project

Caviar Sconces were created in a non-linear design process. « It's those nebulous ideas that condense into an object from disparate parts of your mind that are the most interesting ». All the individual components of the Caviar Sconces derived from other projects resulted in the transformative effect by the illuminated lens on the steel shot.
