

Kaspar Hamacher

Kaspar Hamacher (1981, Eupen, BE) est diplômé de l'Académie des Beaux-Arts de Maastricht, Pays-Bas. Privilégiant la nature comme source d'inspiration, il se concentre résolument sur la dimension physique plus que conceptuelle du design. Comme il le dit lui-même, il se sent davantage un artisan qu'un designer. Les pièces qu'il crée appellent à l'imagination : que ce soit un morceau de bois ou de cuir, la clé de son travail est l'authenticité à chaque étape du processus de design. Hamacher a une façon qui lui est propre de concevoir une pièce qui soit unique et personnalisée, pleine de sens, revêtant une âme. Son travail est quelque part entre l'art et le design.

Kaspar Hamacher (1981, Eupen, BE) is graduated from the Academie Beeldende Kunsten of Maastricht, Netherlands. Taking nature as his basis, he is focused resolutely on physical rather than conceptual design. As he says himself, he feels more craftsman than designer. The things he can do with wood appeal to the imagination: whether it is a tree stump or a piece of leather, the key is authenticity in every step of his design process. Hamacher's working method always results in a unique, personal piece. A piece of design with a deeper meaning and a soul. His work is somewhere in between art and design.
