Born in Minucciano, Tuscany in 1932, based in Belgium since 1942, Antonio Lampecco, took the direction of the ceramics workshop at the Abbey of Maredsous in 1962. Since 1958 and the World Expo in Brussels, Lampecco has

SPAZIO — NOBILE

exhibited his work in Belgium and internationally. He won a Golden Medal in Prague, Faenza and Monza, received the City Prize in Vallauris in 1982 (FR). Since 1992, he has opened its showroom in Maredret.

About the artist

A great sensitivity in the hands and even more in the heart is necessary to make beautiful ceramics, as well as a constant search in the forms. For me, a good craftsman is in life a simple person, reproducing in his works what he feels in himself, craftsmanship must be an integral part of life.

Context of Belgian Design History

45 years after his Golden Medal won at the Design Center Brussels, 1972, the Italian potter and ceramist Antonio Lampecco comes back to the contemporary scene at Spazio Nobile. As a passionate artist, he will never stop creating new typologies of objects, searching always for new cristalline glosses, glazes and firing processes. Looking back at the golden age of Maredsous Abbey, where Lampecco studied ceramics, we are reexploring with him the Maredsous school founded in 1903, which was from 1939 until the mid-1960s one of the excellence center for applied arts in Belgium, especially when speaking about training artists rather than craftsmen in the field of silversmithing and ceramics. Many of the masterpieces coming from Maredsous have been revealed to the public at the Expo 58 in Brussels.
